Phillips fought to a draw. The second, Somewhere between \$1500 and \$2000 he raked into a canvas sack and then coolly walked out of the bank and down the walk to the plaza in front of the hetel, where his horse was tied. In the meantime Neptune had spread

the alarm and several people from the hotel opened fire on the robber. He replied with four shots from a repeating rifle; then transferring the money from the sack to his saddle bags, he mounted and rode at a walk of the year in social circles. down past the Morenci Southern shops, where he hung the spurs to his horse and galloped away.

The coolness and audacky of the robber is probably what enabled him to effect such a complete getaway in broad daylight in the heart of the

city. (Deputy Scott and a posse were soon hot foot on the traff but lost track of their man in the hills southwest of

The robber were no mask, but had three months growth of beard on his face.

ARTESIA ENLARGES ITS ELECTRIC LIGHT PLANT.

Public Schools Show Increase of 50 Per-cent In Attendance—Many Improve-ments Made In Building.

Artesia, N. M., Sept. 8.—The Artesia Electric Light and Power company is in-stalling a 150 horse power engine that will be used in conjunction with the 60 horse power now in operation. The Artesia Mercantile company that

was burned out at Hope has purchased the stock of the Osburn Mercantile company of that place and will continue to do business there. The company also Posey and Claude Brunett, of Dark purchased the store of the J. K. Hearte Canyon. company at dake Arthur and will contime the business at that place.

The public schools have opened with an attendance of about 800 pupils, an increase of 50 percent over last year's enrolment. Four rooms have been added to the graded schools at a cost of \$25,

Western college has opened with an in creased attendance. A musical and liter-ary entertainment was rendered by the Labor day was observed in Artesia by

the stores closing down in the afternoon.

A baseball game betwen the labor union and Western college was played for the benefit of the cemetery association The machinery of the Artesia Alfalfa Milling company is about installed and will be in operation as soon as power can be procured from the power com-

nter school. Mrs. W. H. Lane has recovered from er serious illness. Miss Annie Hagee of Angus is it Alto visiting Miss Gilmore,

INDIGESTION GOES IN FIVE MINUTES

Heartburn, Dyspepsia, Gas and-Other Stomach Mis-

ery Vanishes. If what you just ate es souring on your stomach or lies like a lump of lead, refusing to digest, or you belch Gas and Eructate sour, undigested food, or have a feeling of Dizziness, Hearthurn, Fullness, Nansea, Bad taste in mouth and stomach headache-this is Indigestion.

A full case of Pape's Diapepsin costs only 50 cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or Indigestion.

Ask your pharmacist to show the formula plainly printed on these 50-cent cases, then you will understand why Dyspeptic trouble of all kinds must go, and why they usually relieve sour, out-of order stomachs or Indiges in five minutes, tion is harmless and taste like candy. though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat, besides, it makes you go to the table with a healtay appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for Biliousness or Constipa-

This city will have many Dispepsin cranks, as some people will call them, but you will be cranky about this splendld stomach preparation, too, if rou ever try a little for Indigestion or Gastritis or any other Stomach misery Get some now, this minute, and forever rid yourself of Stomach Trouble and Indigestion,

TO INVESTIGATE SULPHUR VALLEY

Government Sends Geologieal Survey Men in For Investigation.

The United States geological survey has sent O. E. Meinzer into the Sulphur Spring Valley, Arizona, and will continue at work there for some time. It is expected that three or four months wil he required for the study, which it is noped to make complete and accurate so that the results when published will serve as a reliable foun-dation for such future development of the valley as may be based upon its

underground water supply. This practically means that at least the 2,000,000 acres of government land in Cochise county, southern Arizona, with Douglas as headquarters, is to have the attention of the government experts. and that the well known underground water flow in the valley, which is al-ready being used for the two big smelters at Douglas, which have through their wells a supply of 1500 gallons a minute at each plant, and by hundreds of ranchmen and farmers who have homesteaded upon the land which now earning them a living. So far the water has been developed

Capuzaya hill, adjoining the properties El Carmen and Ampliacion del Carmen.

Guanacevi Denouncements.

Harold McLeod Cobb of Guanacevi, has lecated six claims about a kilometer south of Guanacevi, near the Cerro de Paleros and adjoining La Reina Jalisco.

So far the water has been developed by three systems; first, by compressed air at the smelters, second, by wind-mills which dot the valley for a distance of 150 miles north and south, and third by propeller and centrifugal pumps, operated by gasoline engines.

There is an artesian flow of water rectly east of the Sulphur Springs valley, and also in the San Pedro valley to the west, and it has long been the dream of the people in southern Arizona that only a test is necessary to

prove artesian flow in the Sulphur Springs vulley also, one of the great areas of vastly fertile land open to government entry. If the thorough tests made by the geological survey prove the adequate supply of under ground water for pump irrigation, whether or not artesian flow is demon-strated, the valley will during the coming winter see one of the greatest influxes of homesteaders recorded in the

southwest. With two months of rain, during July and August, irrigation flow is necessary to the harvesting of a full crop for the month of June alone, as the rainy season matures any stand crops well started before the first rainfall, which usually occurs about July 4. In fact, the valley is already producing heavy cronof beans, sorghum, milo maize, Kaffir corn, all vegetables, neaches and granes and potatoes and melons, with a very limited development of its undergre water resources. It is only natural that the government's announcement to dem onstrate the value of the water flow has been received with rejoicing by every ody interested in southern Douglas especially will be larvely benefor with two great smelters, which treat 55 percent of the coppe nined in Arizona, as well as nearly the ores brought over the benjer from Sonora, an active market will plied for everything grown in the great and rich valley at last brought to the

attention of the government, DEL RIO BANKS SHOW AN

INCREASE IN DEPOSITS Another New State Guaranty Bank I Opened There: Stocking Room is

One of the New Pentures. Del Rio, Texas, Sept. 8.—The healthy growth and development of the Del Rio country during the past year, and especially since the Orient railroad began construction on its San Angelo-Del Rio extension, is indicated in the statements of the local national banks issued Sep-

Though the drouth that has prevailed in West Texas this summer has been felt in this territory, though not nearly o seriously as in some sections, the deposits for the banks here at the close of business September 1, show an increase of 42 percent over the same day ne year ago. This illustrates the im rovement in all lines of business and

To further strengthen Del Rio's comperce there has just opened for husiless the Del Plo Bank and Trust company, a state institution operating under the guaranty bank law, with a capi tal of \$75,000. Its officials and stocktolders are practically all total people president: Sidney Turner, late of San Angelo, is active vice president; John J. Foster, of Del Rio, is vice president; and O. B. Franks, formerly with the Mexican National lines, and more recently with the Continental Rubber ompany, of Torreon, Mexico, is cash-These with John C. Clarkson, T. J. Ellis and J. O. Taylor, local stockmen and capitalists, make up the directorate The bank is quartered in the twostory brick block at the corner of Perry and Gove streets, and the interior fix

ares and furniture is of the very lates pattern and design. A feature of the banks' convenience: is a woman's private room, often refered to as the "stocking room."

Take Off the Fat Where it Shows

Most women suffer much humiliation

because of great quantities of fat, so ocated that, no matter how they dress, everybody sees that they are abnormal, This is the day of the slender figure, and fat women are simply not tolerated either in business or social affairs. they see a fat woman pass them on the street or in public places make all manner of sympathetic remarks about her. They do not mean to be unkind or to seem unmanly, but it is natural for a man to dislike fat on a woman. Where fat shows the most there is where it must be removed, and as quickly as possible. This senson's dresses seem be made for the fat woman's misery and the slender woman's delight. They expose all the charms of woman and ner ugliness as well. Exercise and diet will not remove fat. This has been proved. The famous Marmola prescripion which has met with such phenome cal success and has so many of our society women as its sponsors, is now being sold in tablet form to meet the demand of the public for this style of restment. These little tablets go into your system just like food. They stop the stomach and directive apparatu from producing fat and reduce the fat pen the body at the rate of from 12 to 15 ounces a day. They are barmless and can be carried in your purse and earty meal away from home. tre sold at all drug stores at 75 cents a case, or if you prefer you may write the Marmola company, 737 Farmer Building, Detroit, Mich.

cupled that position for the last term John Harvey was thrown from his ouggy and badly bruised in a runaway down Clauson hill. The horse was stopped after running some distance, the buggy was completely demol-

NACO BOY HAS A VERY

NARROW ESCAPE FROM DEATH Naco, Ariz., Sept. 8 .- Jessie Towner, years old, had a narrow escape from being instantly killed, in a peculiar manner, about 12 miles northwest of Naco. He drove into an old abandoned well, said to be 185 feet deep, known as the old Pete Johnson well, the horse became lodged in the well and saved cepted by the board of supervisors, The Towner, who lost his shot gun, horse, and most of the harness.
